HELPING TO RECYCLE FOOD WASTE

**KERBSIDE ORGANICS**

# ENCLOSED KITCHEN TIDY

With Australia's estimated to be generating nearly three million tonnes of food waste on an annual basis, kerbside collection of household organics presents Local Government with an opportunity to improve recycling rates. Research indicates that when collecting household food waste the provision of a kitchen tidy can greatly increase resident participation and in turn improve diversion rates.

The SULO Kitchen Tidy has been ergonomically designed to meet the needs of the local market and fit seamlessly into any modern kitchen. The compact shape and small footprint means the SULO kitchen tidy can be easily placed on a bench top or in a cupboards.

Removable lid for easy cleaning

Ergonomic design for effortless emptying

Wide opening with unique knife scraper for easy use

Elegant design is easily customised

Odour lip provides a neat seal all round

# AERATED KITCHEN TIDY

SULO's aerated kitchen tidy has been elegantly designed to incorporate the use of compostable bags. With a compact shape and small footprint the SULO aerated kitchen tidy boasts an array of modern features. The purpose built bag retainer secures a compostable bag, keeping it concealed and the bin neat and tidy.

SULO's aerated kitchen tidy works together with a compostable bag to enable aeration of the food waste and encourages an aerobic environment that aids in minimising unpleasant odours.

Sturdy carry handle with comfort grip

Handle lock secures lid during transport

Retainer neatly secures a compostable bag

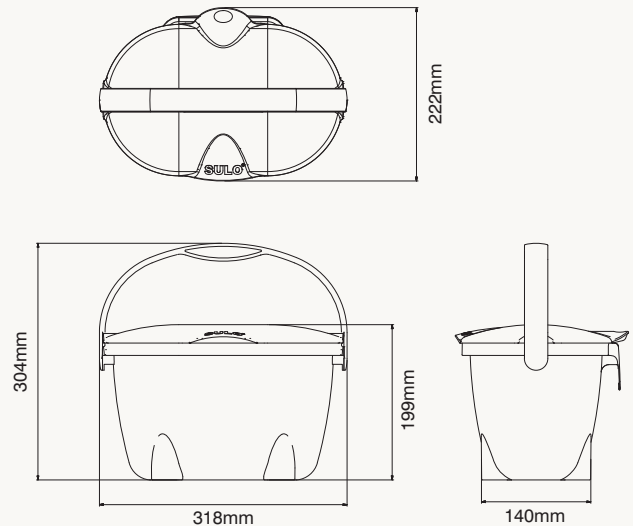

Optional aerated grill doubles as a bag dispenser

Optional bracket for discrete cupboard storage
