

HI-TOPP® Elite

BIN CAP

Resource Recovery Lids

A highly visible waste and recycling bin lid for events and public places

Better by Design

- NEW streamline design
- Stronger, more durable and weather resistant
- Lid fits neatly and securely inside a standard SULO 240L wheelie bin
- Highly visible with easy waste stream identification to help reduce contamination
- Designed and manufactured in Australia

Assembly

- Unique joining mechanism on both sides to facilitate the joining of two or more bins or the creation of a stable bin bank
- Lid extends at the front and back to cover the bin rim and handle to prevent waste from gathering on the bin's surface

Resource Recovery

- Supports source separation and recycling
- Reduces contamination with easily identifiable markings and openings
- Raised section at top accommodates waste stream labels
- Rectangular opening for waste or a round opening for recyclables
- Dual access with openings on both sides of the lid for maximum collection

Easy Handling and Storage

- Lids are easy to fit and remove
- Lids are stackable for easy storage after an event
- Lids have a smooth surface for easy cleaning and hygiene
